With the introduction of Xetra Release 9.0 on **April 28, 2008** following change will be implemented:

The validation for assigned quotation licenses will be abolished for all Eurex Bonds instruments.

With this implementation it will be possible for any Eurex Bonds member to enter and delete quotes in any Eurex Bonds instrument which is assigned to the member and subgroup for trading.

The Member Supervisor will no longer have to do the Market Maker Assignment for single instruments via the function "Subgroup License Maintenance".

This will apply only to the Eurex Bonds platform. Quote functionality of FWB, ISE, Vienna Stock Exchange and EEX remain unchanged.
