Xetra Circular 028/10

To all Xetra® Members and Vendors

Recipients: Traders, Technical Contacts, Project Coordinators, General

March 8, 2010

Xetra Release 11.0:
Publication of Documentation:
Enhanced Broadcast Solution – Interface Specification, Programming Version; Enhanced Transaction Solution – Interface Specification, Programming Version; Member FE Development Guide, Programming Version; XML Report Reference Manual, Programming Version

Dear Sir or Madam,

We have published today the following documentation in connection with the planned introduction of Xetra Release 11.0 on June 28, 2010:

- Enhanced Broadcast Solution – Interface Specification, Programming Version
- Enhanced Transaction Solution – Interface Specification, Programming Version
- Member Front End Development Guide, Programming Version
- XML Report Reference Manual, Programming Version

Document *Enhanced Broadcast Solution – Interface Specification, Programming Version* contains a detailed overview of the Xetra interface for the dissemination of market information. It describes the software and hardware requirements, the message formats used and available broadcast streams.

Document *Enhanced Transaction Solution – Interface Specification, Programming Version* describes in detail the Xetra interface "Enhanced Transaction Solution". This includes a description of message formats and features offered as well as the underlying design concept.

The *Member Front End Development Guide, Programming Version* is an updated version of the VALUES API description. It provides detailed information about application requests, subscriptions and responses offered with Xetra Release 11.0.
