Xetra Release 10.1 - Permanent Simulation:
Information regarding Distribution and Installation of the Xetra Release 10.0 Simulation Update Kit 4
Update of Simulation Calendar – Additional Batch Run

Dear Sir or Madam,

With this circular, we would like to provide you with all details about the distribution of the Xetra software for the permanent simulation environment.

Simulation of Xetra International Market will be possible in the permanent simulation environment of Xetra Frankfurt starting November 11, 2009.

In order to grant access to Xetra International Market on the Xetra Frankfurt back-end, a Xetra Release 10.0 simulation update kit 4 will be distributed to all members on November 6, 2009. It is highly recommended to install the update kit for permanent simulation on MISS and workstation.

For set-up information in the Xetra International Market simulation please refer to the *"Xetra Release 10.1 Member Guide – Permanent Simulation"*. The document has been published on the Deutsche Börse Group website www.deutsche-boerse.com in the Xetra/Floor Members Only area. To download your personal copy, please visit

Trading & Clearing > Members Only > Xetra/Floor > Xetra Information > Xetra Simulation > Documents

Distribution:
On Friday, **November 6, 2009** you will receive the Xetra Release 10.0 simulation update kit 4. Transmission will take place via FTP to your report nodes. This kit enables access to Xetra International Market on the Xetra Frankfurt back-end.

E-Mail: circular.xetra@deutsche-boerse.com Internet: www.xetra.de

The target transfer directories on the Xetra simulation MISSes are:

For Xetra Frankfurt:

SUN Solaris 10:	**/opt/gate/transferdir/release52**
Windows Server 2003:	**<ftp-root directory>\release52**

For Xetra Frankfurt 2:

SUN Solaris 10:	**/opt/gate/transferdir/release62**
Windows Server 2003:	**<ftp-root directory>\release62**

Each member will receive both simulation update kits, i.e. the kit for SUN Solaris 10 and the kit for Microsoft Windows.

To ensure a smooth kit distribution, please note the following:

- At least **40 MB** free disk space has to be available in the transfer directory on each of your MISSes in both simulation environments (52/62).
- Make sure that your report MISSes in both of your Xetra simulation environments will be reachable without interruption from Friday evening, **November 6, 2009** until Tuesday morning, **November 10, 2009** to enable the file transfer.
- Check that the necessary read and write permissions for files and folders are set correctly.

On August 10, 2009 Deutsche Börse AG announced in Xetra circular 083/09 that Xetra Release 10.1 will also support Sun Solaris on X86 servers. On November 6, 2009 the dedicated **GATE 3.5 full kit and Xetra Release 10.0 front-end software full kit for Sun Solaris X86** as well as an **update kit for Sun Solaris X86** will be available on the website of Deutsche Börse Group under the following path:

Trading & Clearing > Members Only > Xetra/Floor > Xetra Information > Xetra Software > Xetra 10.1

Deutsche Börse AG will monitor the successful distribution of the kits. In case of any transfer problems, another transfer for the next day will be initiated automatically. In addition, the software will be available on the website of Deutsche Börse Group for downloading as of **November 6, 2009** under the following path:

Trading & Clearing > Members Only > Xetra/Floor > Xetra Information > Xetra Software > Xetra 10.1

Distribution of @Xetra Software via Java Web Start

For trading members using @Xetra, the simulation update kit 4 will be distributed through the Web Start servers managed by Deutsche Börse Systems AG as of Friday, **November 6, 2009**. By starting the applications available under

http://atxetra.deutsche-boerse.com/xetra/simu/

the download process will be initiated. After the download has been completed, @Xetra customers will be able to log in to Xetra International Market on Xetra Frankfurt back end.

Installation:
The installation on MISS and workstation is mandatory in order to access Xetra International Market simulation on the Xetra Frankfurt back-end. For details about installation, please refer to the "Installation Notes" (readme file) for the Xetra Release 10.0 simulation update kit, which will be distributed together with the software kits.

Please note that there will be an additional batch run on Xetra Frankfurt and Xetra Frankfurt 2 on November 9, 2009. The simulation calendar has been updated and can be found on the Deutsche Börse Group website under the path:

Trading & Clearing > Members Only > Xetra/Floor > Xetra Information > Xetra Simulation

Should you have any further questions or need additional information, please contact the Customer Technical Support Xetra via telephone using your individual VIP number (or contact the general hotline 49-(0) 69-2 11-1 84 00) or the Member Services & Admission team at tel. +49-(0) 69-2 11-1 16 40.

Yours faithfully,
On behalf of the Management Board

Holger Patt
