Subpart 3.2 Contracts Admitted for Off-Book Trading

The following Futures and Options Contracts admitted for trading at Eurex Deutschland or Eurex Zürich may be entered using the Eurex T7 Entry Service for the trade types specified below.

3.2.1 Block trades

The products listed below are admitted to block trading. Aside from the standard contract on a certain underlying instrument pursuant to Annex A and Annex B, contracts may also be traded according to a different type of execution, settlement and term, provided that this has been permitted by the Management Board in the table below ("Additional Contract Versions"). The terms of the trades may not exceed the maximum terms of a Eurex Future or Eurex Option defined by the Management Boards of the Eurex Exchanges and the exercise of the trades may not exceed the maximum execution of an option defined by the Management Boards of the Eurex Exchanges, multiplied by 2.5.

* The group ID as well as the cash market ID shall be assigned by the Eurex Exchanges according to the following table and shall merely have an internal assignment function. If the reference market of the underlying share is changed within the Electronic Trading System of the Euronext Exchanges Euronext Brussels, Euronext Paris and Euronext Amsterdam, the Management Board of Eurex Deutschland and Eurex Zürich may change the cash market-ID for a contract and thus determine a relevant cash market other than the cash market determined upon the introduction of the contract.

** GBX: Pence Sterling
