Central Counterparty - CCP August 14, 2001
Planned CCP Product Range - Update

Dear Sir or Madam,

With CCP information 12/01, we provided an overview of the product range planned for the first introduction step of the central counterparty (CCP). Following a suggestion put forward in discussions with market participants, Deutsche Börse AG has adjusted the CCP product range. In its first introduction step, the central counterparty will now include German stocks held in collective safe custody and tradable on Xetra on the trading platforms Floor and Xetra.

We enclose with this letter a current list of the CCP product range in alphabetical order which specifies the security name, the International Security Identification Number (ISIN), as well as the German security ID number (Sec. ID No.). Please note that this list of instruments, which are in the scope of the first CCP step, is only indicative, since the product range is subject to change (e.g. due to new issues).

The attached document is also available in the closed CCP user group on the Xetra web site under documentation / circulars.
