e u r e x *circular 81/99*

To: All Eurex members and vendors

Date: Frankfurt, 19th August 1999

3-Hour Postponement of start of Connection Test on Saturday 21st August 1999

Dear Sir or Madam,

Since we originally established the time window for the Release 3.0 User Device connection tests on 21st August, BMW has announced a stock split to take effect from 23rd August. From the Eurex side the associated processing on our database will be performed after close of trading on Friday 20th August. Details have already been published to members via the Eurex Newsboard.

The capital adjustment adds a significant extra load to the regular batch processing which will delay the time at which we can start the software conversion for the new release.

We have therefore decided to postpone the start of the supported connection test period until 13.00 CET, and we will extend the closing time correspondingly until 17.00 CET. You should be aware that the environment will also be open for the remainder of the weekend, but no support will be available.

We hope that this postponement does not inconvenience you unduly.

If you have any questions please contact our technical help-desk on +49 (0)69-2101-1200.

Yours sincerely,

Jürg Spillmann Hartmut Klein
