e u r e x *circular 72/99*

To: All Eurex members and vendors

Date: Frankfurt, 4th August 1999

1. Updates to Member Front End Development Guide
2. Permanent Simulation Calendar – September 1999

Dear Sir or Madam,

Please note the following information.

1. Member Front End Development Guide (Eurex Release 3.0)

The development guide documentation has recently been updated, and revised versions can be found on the Eurex web-site at 'Entrance Hall/Access to Eurex/Technical Infrastructure/Member Front End Development Guide'.

Volume 1 has been updated to correct minor inconsistencies.

The updates to Volume 2 are also relatively minor and include changes to descriptions of field usage in the Application Requests 'Inquire Product', 'Inquire Trade', and 'Inquire Own Trade'. The document has also been updated to include the comment that orders routed through the ORPI interface of the User Device receive no associated Order Confirmation in the MISS Order Confirmation broadcast stream.

A new document has been produced as a supplement to Volume 2 and has also been published on the Web-site. This is a functional overview, which provides details of field validations, descriptions of back-office transaction types, inside market information, and broadcast messages.

2. Permanent Simulation – September 1999

Attached you will find the permanent Simulation Calendar for the period of 6th to 24th September 1999. After that, the simulation environment will be closed to prepare for the overall Simulation II of the Year 2000 project of Deutsche Börse Group. You will receive further information on that in a future communication.

If you have any questions, please contact Eurex Member Readiness at Tel. +49 (0)69-2101-1700.

Yours sincerely,

Andreas Preuß

Hartmut Klein
