Eurex Central Co-ordinators and Member Communication

«ANREDEZEILE»

Following the successful conclusion of the Eurex project at the end of September, we announced a rationalisation of Eurex member communication. This required the identification of a single individual at each member institution who would be the central point of contact for all Eurex member communication, responsible for its distribution and follow-through within the departments concerned. We named this role 'Eurex Central Co-ordinator'.

Using our lists of Eurex contacts as the starting point, we invited one individual at each organisation to take on the Central Co-ordinator role, and to confirm their acceptance, or identify another willing individual in their organisation, by returning a fax-reply form.

Over 85% of members have now returned their fax replies, and we are proceeding to establish the Eurex Central Co-ordinator relationships definitively. We have also extended our methods of communication as described below.

This circular is being addressed to our full list of Eurex member contacts so that the future situation is known to everyone.

Eurex Central Co-ordinator

According to our records, the designated Eurex Central Co-ordinator for your institution is Mr. «ZK_vnam» «ZK_nnam».

Physical Mail

At member institutions the physical mail copy of Eurex circulars and other information will be addressed to the Eurex Central Co-ordinator identified above only. The Eurex Central Co-ordinator will be informed which other individuals in the organisation have received our circulars in the past.

E-mail

Where an institution has provided us with a dedicated e-mail address, circulars will also be transmitted by e-mail as .pdf files. We have asked institutions to make these accounts non-personal, so that access to the information is not restricted to a single individual.
