With Circular 035/02 dated 29 April, 2002, Eurex announced that support for the Windows NT operating system will be discontinued for all MISS and workstations upon introduction of Eurex Release 6.0 on 28 October, 2002.

After that date, Windows 2000 (for MISS and workstations) and Windows XP (for workstations only) will be the only supported operating systems for Windows platforms. Support for both of these is already provided by Eurex for the current release. **The support of SUN Solaris platforms by Eurex remains unaffected.**

To ensure a smooth transition to the new operating system and provide you with the best support possible, please let us have the requested data about your migration schedule to the new version of the operating system by returning the attached fax reply by **12 July, 2002**.

For any further questions, please do not hesitate to contact your Key Accounter or the Functional Member Readiness Team at +49 (0)69-21 01-17 00.
