With the introduction of Eurex Release 4.0 on 26 June, 2000, a change was made to the internal administration of Eurex Resource Access Levels. This can lead to the situation where User IDs with authorisation for Trading (Trader, Trader Assistant, Market Maker) are no longer able to access certain back-office functions of the Eurex System.

In order to avoid settlement problems, particularly on the last trading day, we would ask the Security Co-ordinators of all exchange members to check that the User IDs associated with the areas concerned have sufficient resource access, particularly to the following functions:

- Position Keeping Screens (F010 - F100)
- In-The-Money Exercise (H010)
- Exercise Entry (H020)
- Member Positions (J020)
- Transfer Member Positions (K060)
- Give-up/Take-up Screens (N010 - N060)

If the Security Co-ordinator is unable to set these access rights when required, we would ask you to send us a fax to +49 (0)69-2101-4334 identifying the User IDs for which the rights need to be adjusted. Eurex Clearing AG will then take the necessary action so that the Security Co-ordinator can grant the access rights required.
