Xetra Release 7.1 October 1, 2004
Functional and Technical Documentation

Dear Sir or Madam,

With this circular we provide you with the sixth member information package in connection with the introduction of Xetra Release 7.1 scheduled for December 6, 2004.

As of today, the following documents are available in English only on our Internet page for downloading.

I. Functional documents:

Xetra J-Trader User Manual

This document describes the browser-based graphic user interface "J-Trader" for Xetra Release 7.1. It explains the supporting trading functions and familiarizes the user with the "Look and Feel" of Xetra Release 7.1 and its characteristics. The final version of the J-Trader User Manual will be available as of November 26, 2004. A German version will also be provided at the production start.

Member Simulation Guide

The Member Simulation Guide describes the simulation concept for Xetra Release 7.1. In order to enable a successful simulation, it defines key data and planning basics for the preparation and transaction of members´ activities (e.g. calendars, instruments, simulation guidelines).
