Xetra Release 7.0 October 15, 2003
VALUES API Documentation Update

Dear Sir or Madam,

An updated version of the „Member Front End Development Guide Xetra Release 7.0“ is now available on our website www.deutsche-boerse.com.

Updates to this document are listed in a separate description (Change Log) which has been published together with the document. Those updates do not require software adjustments on the member side.

In addition, an updated version of the VALUES API header files has been made available. The changes were already described in circular 134/03 of September 9, 2003, in conjunction with the update kit distribution. We would like to re-emphasize that the changes to the header files are relevant for Eurex Bonds members only.

On www.deutsche-boerse.com, please follow the links:
