Summary:

After close of trading on **March 16, 2007**, Eurex will distribute GATE 3.5 update kit 1 for production, simulation and advanced simulation. Installation of the update kits is optional on all MISSes and workstations in the production, simulation and advanced simulation environments.

This update will optimize the internal handling of Private Recoverable Broadcasts and will ensure correct operation of the MISS in the event that the ROB Log file exceeds 2 GB. The update kits can be used in the aforementioned environments from **March 19, 2007** onwards.

Eurex Release 9.0: Distribution of GATE 3.5 Update Kit 1 for Production, Simulation and Advanced Simulation

After close of trading on March **16, 2007**, Eurex will distribute GATE 3.5 update kit 1 for production, simulation and advanced simulation. Installation of the update kits is optional on all MISSes and workstations in the production, simulation and advanced simulation environments.

This update will optimize internal handling of Private Recoverable Broadcasts and will ensure correct operation of the MISS in the event that the ROB Log file exceeds 2 GB.

The update kits can be used in the aforementioned environments from **March 19, 2007** onwards and will ensure that production, simulation and advanced simulation environments contain the same software revisions.

Please note that optimal support can only be provided on the basis of the most recent software versions.

The production, simulation and advanced simulation update kits will be transmitted to Eurex participants via File Transfer Protocol (ftp) on Friday, March 16, 2007, after 23:00 CET. The software will only be sent to the registered report nodes. In parallel, the kits will be made available for download from the Eurex website under the following paths:

www.eurexchange.com > Member Section > Software Kits > Eurex 9.0 Production

www.eurexchange.com > Member Section > Software Kits > Eurex 9.0 Simulation

www.eurexchange.com > Member Section > Software Kits > Eurex 9.0 Advanced Simulation

Please ensure that the simulation, production and advanced simulation environments are connected to the Eurex® network on Friday March 16, 2007 from 23:00 CET onwards. The following target directories should have a total space capacity of approximately 2 MB per environment for data transmission.

Production:

- SUN Solaris (MISS): /opt/gate/transferdir/release00
- Windows (MISS): <ftp-root directory>\release00

Simulation:

- SUN Solaris (MISS): /opt/gate/transferdir/release01
- Windows (MISS): <ftp-root directory>\release01

Advanced Simulation:

- SUN Solaris (MISS): /opt/gate/transferdir/release03
- Windows (MISS): <ftp-root directory>\release03

The update kits should be installed according to the instructions contained in the “readme” file, which will be sent together with the kits to the target transfer directory.

If you have not received the update kits by Tuesday, March 20, 2007 please contact the Technical Help Desk on tel. +49-69-211-1 12 00.

Should you experience difficulties logging in to the Member Section, please contact Customer Support on tel. +49-69-211-1 17 00.
