Xetra Release 8.0:
A) Production Update Kit 2 (July 20, 2007)
B) Permanent Simulation Update Kit 4 (July 6, 2007)
C) Advanced Simulation Update Kit 2 (August 3, 2007)

Dear Sir or Madam,

We are writing to provide you with details about distribution and installation of Xetra Release 8.0 production update kit 2, Permanent Simulation update kit 4 and Advanced Simulation update kit 2.

By means of the new front-end software, particular windows of the Xetra J-Trader are improved, for example for modification and filtering of orders.

A) Production Update Kit 2 (July 20, 2007)

1) Distribution of Xetra 8.0 Front-End Software Kits

On Friday **July 20, 2007**, after close of trading, the production update kits will be distributed via file transfer (FTP) over the Xetra network to the members' report nodes.

For trading members using @Xetra, the Xetra 8.0 production update software will be provided via the Java Web Start as of **July 23, 2007**.

The target transfer directories on the Xetra 8.0 production MISSes are:

SUN Solaris 10: **/opt/gate/transferdir/release51**
Windows Server 2003: **<ftp-root directory>\release51**

In total, each member will receive two Xetra Release 8.0 production update kits, i.e. one separate kit for SUN Solaris 10 and one kit for Windows

Server 2003 (MISS)/Windows XP (workstation).

To ensure a smooth kit distribution, please note the following:

- At least **30 MB** disk space has to be available in the transfer directory on each of the members' production MISSes,
- Make sure that the MISSes of your Xetra production environment are connected to the Xetra production back-end without interruption from Friday evening, **July 20, 2007** until Tuesday morning, **July 24, 2007** to enable the file transfer,
- Check that the necessary read and write permissions for files and folders in the transfer directory are set correctly on your production MISSes.

Deutsche Börse AG will monitor the successful distribution of the Xetra Release 8.0 production update kits. In case of any transfer problems, a new transfer job for the next day will be initiated automatically. In addition, the software will be posted on the website of Deutsche Börse Group for downloading as of Monday, **July 23, 2007** under the following path:

www.deutsche-boerse.com > Trading & Clearing > Members Only > Xetra/Floor > Xetra Software > Xetra 8.0

2) Installation of Xetra 8.0 Production Update Kits

Please install the production update kits as of Monday, July 23, 2007. Starting Tuesday, July 24, 2007, support will only be provided for the most recent software version.

For details about installation, please refer to the "Installation Notes (readme file)" for Xetra Release 8.0 production update kit which will be sent out together with the front-end software kits.

3) Distribution of @Xetra Release 8.0 Production Software via Java Web Start

For @Xetra customers, all Xetra Release 8.0 front-end production software components are distributed by the Web Start servers managed by Deutsche Börse Systems AG. Software distribution and installation will be performed automatically. When starting the applications available under

www.atxetra.deutsche-boerse.com/xetra/prod/

the download process will be initiated. For @Xetra members, production update kit 2 will be available for automatic download as of Monday, **July 23, 2007**. Please note that downloading the @Xetra software may take up to 20 minutes, depending on the bandwidth of your internet connection.

For @Xetra Release 8.0 it is mandatory to purge the Java Cache and the Browser Cache

after Friday, July 20, 2007, close of trading, and before the next log-in, on Tuesday, July 24, 2007 at the latest.

Please refer to the document "@Xetra 8.0 Installation Guide" for details of this process.

Please consider that the simulation environment will not be available for approximately two hours on July 20, 2007, as Deutsche Börse AG will install the new software on this day.

B) Permanent Simulation Update Kit 4 (July 6, 2007)

1) Distribution of Xetra Release 8.0 Permanent Simulation Front-End Software Kits

On Friday **July 6, 2007**, after close of trading, the Permanent Simulation update kits will be distributed via file transfer (FTP) over the Xetra network to the members' Permanent Simulation environment report nodes.

Trading members who use @Xetra will receive the Xetra Release 8.0 update software for the Permanent Simulation via Java Web Start as of **July 9, 2007**.

The target transfer directories on the Xetra 8.0 Permanent Simulation MISSes are:

SUN Solaris 10:	**/opt/gate/transferdir/release52**
Windows Server 2003:	**<ftp-root directory>\release52**

In total, each member will receive two Xetra Release 8.0 Permanent Simulation update kits, i.e. one separate kit for SUN Solaris 10 and one kit for Windows Server 2003 (MISS)/Windows XP (workstation).

To ensure a smooth kit distribution, please note the following:

- At least **30 MB** disk space has to be available in the transfer directory on each of the members' Permanent Simulation MISSes,
- Make sure that the MISSes of your Xetra Permanent Simulation environment are connected to the network without interruption from Friday evening, **July 6, 2007** until Tuesday morning, **July 10, 2007** to enable the file transfer,
- Check that the necessary read and write permissions for files and folders in the transfer directory are set correctly on your Permanent Simulation MISSes.

Deutsche Börse AG will monitor the successful distribution of the Xetra Release 8.0 Permanent Simulation update kits. In case of any transfer problems, a new transfer job for the next day will be initiated automatically. In addition, the software will be posted on the website of Deutsche Börse Group for downloading as of **July 9, 2007** under the following path:

www.deutsche-boerse.com > Trading & Clearing > Members Only > Xetra/Floor > Xetra Software > Xetra 8.0

2) Installation of Xetra 8.0 Permanent Simulation Update Kits

Please install the Xetra 8.0 Permanent Simulation update kits as of July 9, 2007. Starting Tuesday, July 10, 2007, support will only be provided for the most recent Xetra 8.0 Permanent Simulation software version.

For details about installation, please refer to ”Installation Notes (readme file)“ for Xetra Release 8.0 Permanent Simulation software which will be sent out together with the software kits.

3) Distribution of @Xetra Release 8.0 Permanent Simulation Software via Java Web Start

All Xetra Release 8.0 front-end Permanent Simulation software components for @Xetra customers are distributed by the Web Start servers managed by Deutsche Börse Systems AG. Software distribution and installation will be performed automatically. When starting the applications available under

www.atxetra.deutsche-boerse.com/xetra/simu/

the download process will be initiated. For @Xetra members, the Permanent Simulation update kit 4 will be available for automatic download as of Monday, **July 9, 2007**. Please note that downloading the @Xetra software may take up to 20 minutes, depending on the bandwidth of your internet connection.

For the Permanent Simulation @Xetra Release 8.0 it is mandatory to purge the Java Cache and the Browser Cache after Friday, July 6, 2007, close of trading, and before the next log-in, on Monday, July 9, 2007 at the latest.

Please refer to the document “@Xetra 8.0 Installation Guide“ for details of this process.

Please consider that the simulation environment will not be available for approximately two hours on July 6, 2007, as Deutsche Börse AG will install the new software on this day.

C) Advanced Simulation Update Kit 1 (August 3, 2007)

1) Distribution of Advanced Simulation Front-End Software Kits

On Friday **August 3, 2007**, after close of trading, the Advanced Simulation update kits will be distributed via file transfer (FTP) over the Xetra network to the members’ Advanced Simulation environment report nodes.

The target transfer directories on the Xetra 8.0 Advanced Simulation MISSes are:

SUN Solaris 10:	**/opt/gate/transferdir/release53**
Windows Server 2003:	**<ftp-root directory>\release53**

In total, each member will receive two Xetra Release 8.0 Advanced Simulation update kits, i.e. one separate kit for SUN Solaris 10 and one kit for Windows Server 2003 (MISS)/Windows XP (workstation).

To ensure a smooth kit distribution, please note the following:

- At least **30 MB** disk space has to be available in the transfer directory on each of the members' Advanced Simulation MISSes,
- Make sure that the MISSes of your Xetra Advanced Simulation environment are connected to the network without interruption from Friday evening, **August 3, 2007** until Tuesday morning, **August 7, 2007** to enable the file transfer,
- Check that the necessary read and write permissions for files and folders in the transfer directory are set correctly on your Permanent Simulation MISSes.

Deutsche Börse AG will monitor the successful distribution of the Xetra Release 8.0 Advanced Simulation update kits. In case of any transfer problems, a new transfer job for the next day will be initiated automatically. In addition, the software will be posted on the website of Deutsche Börse Group for downloading as of Monday, **August 6, 2007** under the following path:

www.deutsche-boerse.com > Trading & Clearing > Members Only > Xetra/Floor > Xetra Advanced Simulation

2) Installation of Xetra Release 8.0 Advanced Simulation Update Kits

Please install the update kits as of Monday, August 6, 2007. Starting Tuesday, August 7, 2007, support will only be provided for the most recent software version.

For details about installation, please refer to "Installation Notes (readme file)" for Xetra Release 8.0 Advanced Simulation software which will be sent out together with the software kits.

For any further inquiries, please contact the Xetra Technical Helpdesk at telephone +49-(0) 69-211-1 84 00.

Yours faithfully,
On behalf of the Management Board

Axel Birk
