New Instruments - Information No. 42:
Introduction of Cédulas Hipotecarias as of 1.5 Bn Issuing Volume

Upon multiple participant request, effective September 3, 2007 Eurex Bonds will introduce trading in Spanish Cédulas Hipotecarias as of an issuing volume of EUR 1.5 billion.

So far, only Spanish covered bonds with an issuing volume of EUR 2.0 billion were admitted to trading in the Covered Bonds Segment.

For the list of new instruments please see the attachment.

By adjusting listing criteria for Spanish covered bonds, Eurex Bonds completes its range of European covered bonds which are available on its trading platform as of an issuing volume of EUR 1.5 billion. In addition to Spanish Cédulas Hipotecarias also all relevant issues of French, British, Irish, Dutch, Swedish and U.S.-American issuers of covered bonds are admitted to trading.

Presently, eight Market Makers support the Covered Bonds market on Eurex Bonds. By making available liquidity in this segment each Eurex Bonds participant can profit from the attractive conditions of the present pricing model. The so-called “Non-Agressor”, i.e. the party which enters a bid or ask price, will be granted more favorable fees. In case the “Non-Agressor” is also a shareholder, it will even receive a fee reimbursement for each traded million.

For details of the pricing model please follow the link to our website:

Market-Making activity in new instruments requires the assignment of the corresponding market-making licenses to your trader groups (subgroup license maintenance).

New instruments will usually be available for administration one day in advance of the first trading day from about 14:00 CET.

The updated instrument list is available on the Eurex Bonds website under the link:
