New Front End Architecture for Eurex Release 3.0
EurexPTC – Printable Trade Confirmations Application

Dear Sir or Madam,

The Eurex Printable Trade Confirmations application (EurexPTC) based on VALUES API is now available in its Simulation version as a download from the Member section of the Eurex web-site. The download files can be found on the page 'info for members/special/special'. These applications are suitable for the new MISS architecture simulation environment only.

As announced in Eurex Circular No. 69/99 the EurexPTC application is available to all members free of charge in its executable form, in versions for Sun Solaris, IBM AIX and Windows NT. The OpenVMS Version will be delivered later.

The User Manual for the three platforms mentioned above is provided in .pdf format and can be downloaded from the same web page using Adobe Acrobat Reader version 3.0 or higher.

There are separate versions of the application for the simulation and production environments. The production version of the EurexPTC application will be made available by 31st August 1999.

If you have any questions, please contact the Eurex Technical Help-desk on Tel. +49 (0)69-2101-1200.

Yours sincerely,

Jürg Spillmann Hartmut Klein
