Update for User Device Production Software

Dear Sir or Madam,

The first production days with Eurex Release 3.0 have proceeded without problems. Only in very special circumstances (a problem with Refreshing/Changing/Deleting a Calendar Spread as the first action after starting a trading session) has an error been found. The MEMP/ORPI programmable interfaces were not affected. To correct the error we will transmit a software update **tonight** to all User Devices:

Directory:	IBM/AIX (User Device):	/toff00/data/reports/release
	Compaq OpenVMS (User Device):	toff00$:[toff00.data.reports]

File names:

IBM/AIX (User Device, Satellite):	EUREX_PRD_UPD_030_1 EUREX_PRD_UPD_030_1.tar.Z EUREX_PRD_UPD_030_1.TXT
Compaq OpenVMS (User Device, Satellite):	EUREX_PRD_UPD_030_1.COM EUREX_PRD_UPD_030_1.BCK EUREX_PRD_UPD_030_1.TXT

Disk space:

IBM AIX (User Device):	ca. 7 MB (on UD and SAT)
Compaq OpenVMS (User Device):	ca. 10 MB (on UD and SAT)

Please check that you receive this patch kit completely, and ensure that the patch is installed.

The installation can be carried out after the close of business following the instructions in the 'Read-me' file supplied with the patch kit (EUREX_PRD_UPD_030_1.TXT).

For questions, our Technical Help-desk will be pleased to assist you on Tel. +49 (0)69-2101-1200.

Yours sincerely,

Jürg Spillmann Hartmut Klein
