The Management Boards of the Eurex Exchanges decided to delist options contracts on stocks of HypoVereinsbank (HVM), Schering (SCH) and Sanpaolo IMI (PAO5).

The delisting procedure will be done in such a way that effective immediately, no new series and expiration months will be introduced. Series, in which there is no open interest will be deleted directly. Series with open interest will remain available for trading and will not be deleted before all positions have been closed out or maturity has been reached.
