Eurex Release 9.0: Sizing Guidelines Calculation Sheet

Contact: Eurex Technical Helpdesk, tel.: +49-69-211-1 12 00

Content may be most important for:	**Attachment:**
➲ IT/System Administration	Sizing Guidelines Calculation Sheet

In order to simplify calculation for the sizing of MISS and workstation installations, Eurex provides an extension to the Sizing Guidelines document, the Sizing Guidelines Calculation sheet. The Sizing Guidelines Calculation sheet, based on Microsoft Excel, will support members in sizing their MISS and workstation installations on Solaris and Windows. It can be downloaded from the Eurex website under

www.eurexchange.com > Member Section > Releases > Eurex 9.0 > Manuals > Technical Manuals

The Sizing Guidelines Calculation sheet contains online help which can be accessed by selecting the "Help" sheet.

Whenever the Sizing Guidelines document is updated in future, the changes will also be incorporated into the Sizing Guidelines Calculation sheet. For this reason the examples chapter of the Sizing Guidelines document will no longer be required and will therefore be removed in the next version of the document.
