As of **6 December 2016**, Eurex Participants and investors domiciled in the U.S. will have the following additional product available for trading:

- Eurex Daily Futures on Mini KOSPI-200-Futures (FMK2)

The Division of Market Oversight of the Commodity Futures Trading Commission (CFTC) approved the certification request by Eurex Deutschland for its Eurex Daily Futures on Mini KOSPI-200-Futures.

Pursuant to the no-action relief for direct market access granted to Eurex Deutschland in 1999, as well as to this most recent product certification by CFTC, the Eurex Daily Futures on Mini KOSPI-200-Futures can be offered to U.S. persons via Eurex terminals with direct access in the U.S. or sold to these persons.

The respective new assignment group for the product is XFCHQK (before: XNCHQK).

For traders currently authorized to trade the product FMK2, the new Product Assignment Group must be assigned. This is the case for all Trading Authorizations and Transaction Size Limits.

Please note that as a consequence of the assignment of the product FMK2 to the new product group, the Multicast addresses for data distribution will remain unchanged. Port numbers, however, will change as follows:

- Snapshot messages: Change from 59032 to 59000
- Incremental messages: Change from 59033 to 59001
