Preamble

On the basis of

- (1) the Clearing Agreements concluded with the Clearing Members and the respective current version of the Clearing Conditions of Eurex Clearing AG (hereinafter referred to as “**Clearing Conditions**”), and
- (2) the FCM Clearing Agreement concluded with the FCM Clearing Member and the respective current version of the FCM Regulations of Eurex Clearing AG,

the Price List of Eurex Clearing AG (“**Price List**”) sets forth the fees individually assessed by Eurex Clearing AG (“**Eurex Clearing**”) for the matters set forth below and provided for in aforementioned conditions.

Basic Principles

The Price List in effect at the respective time is an integral part of the Clearing Conditions. Capitalized terms used, but not defined in this Price List shall have the meaning ascribed to them in the Clearing Conditions, or, if applicable, in the FCM Regulations. However, any reference to a “Clearing Member” in this Price List shall also include FCM Clearing Members and ISA Direct Clearing Members if not explicitly stated otherwise. In such case, the Price List shall apply accordingly to FCM Clearing Members and ISA Direct Clearing Members.

1 Fees for Clearing Licenses

- (1) Pursuant to the provisions of Chapter I Part 1 Number 5.1 of the Clearing Conditions and – with regard to FCM Clearing Members – Chapter I Number 7 of the FCM Regulations, Eurex Clearing shall charge its Clearing Members:
 - a) for the granting of the first clearing license and thus admission as a Clearing Member, a single admission fee in the amount of EUR 50,000;
 - b) for one or more clearing licenses collectively an annual fee in the amount of EUR 25,000.
- (2) For the granting of ISA Direct Clearing Licenses which entitle the respective Clearing Member to participate in the clearing of Repo Transactions (Chapter IV Number 1.1 of the Clearing Conditions), Eurex Clearing shall not charge its Clearing Members a single admission fee in accordance with Number 1 Paragraph 1 letter a) above nor an annual fee in accordance with Number 1 Paragraph 1 letter b) above until this clause is revoked in writing.
- (3) For the granting of ISA Direct Light Licenses pursuant to Chapter IV Part 3 Number 3.1 of the Clearing Conditions, Eurex Clearing shall not charge its Clearing Members a single admission fee in accordance with Number 1 Paragraph 1 letter a)

above nor an annual fee in accordance with Number 1 Paragraph 1 letter b) above until this clause is revoked in writing.

3 Transaction Fees for Derivatives Transactions (Order Book Transactions and Off-Book Transactions on the Eurex Exchange)

Eurex Clearing charges fees for transactions pursuant to Chapter I Part 1 Number 5.1 of the Clearing Conditions.

These fees comprise transactions with regard to the matching / registration, administration and regulation of order book and off-book transactions on Eurex Deutschland (the “**Eurex Exchange**”).

Provided that the transaction fees in this Price List are shown on different Position Accounts with regard to the accounting of the underlying transactions, such differentiation relates to the Position Accounts (“**Accounts**”) defined in Number 5 of the Conditions for Trading at Eurex Deutschland (the “**Eurex Trading Conditions**”).

In general, transaction fees for FX derivatives (FX Futures Contracts, FX Options Contracts) are charged in USD. Alternatively, Eurex Clearing offers Clearing Members to set for itself, DC Market Participants, Indirect Client Market Participants, DCs With System Access and Basic DCs to which a member identifier is assigned in Eurex Clearing AG’s systems (such Basic DCs hereinafter referred to as “**Basic DC wID**”) the possibility to choose the alternative fee currency for FX Derivatives with quote currency AUD, NZD, CAD, EUR, CHF, JPY, NOK, SEK, DKK and GBP. With explicit registration for the alternative fee currency, which equals the quote currency of the respective FX derivative, this currency applies to all fees defined in this section with regard to the FX derivatives.

Each of the transaction fees to be paid on a monthly basis is shown separately to the Clearing Members with regard to their respective DC Market Participants, Indirect Market Participants, DCs With System Access and Basic DCs wID with respect to which they clear transactions.

Notwithstanding the fees outlined in this section, the following principle shall apply for DCs With System Access and for Basic DCs wID: Actions processed in P- or M-Accounts of these participants will be considered with the respective fee valid for the A-Account. Exceptions apply for affiliated companies of trading participants of Eurex Deutschland within the meaning of §§15 et seq. of the German Stock Corporation Act (Aktiengesetz), provided that the DC With System Access or Basic DC wID successfully completes a registration procedure: actions processed in P- or M-Accounts of those DCs With System Access and Basic DCs wID will be considered with the respective fee valid for P- or M-Account. Should a DC With System Access or a Basic DC wID cease to be affiliated to a trading participant of Eurex Deutschland, it needs to instantaneously inform Eurex Clearing on the changed corporate status.

3.1 Matching / Registration of Derivatives Transactions

- (1) For transactions executed via the order book on the Eurex Exchange or transactions executed off-book and entered either via Eurex EnLight or via the Eurex T7 Entry Service (TES), a standard fee per contract applies as listed in the following tables. The Standard Fee is subject to the execution type (order book transactions on the Eurex Exchange or off-book transactions via Eurex EnLight or TES) and to the Account.
- (2) The transaction fee is charged with respect to the Account on which the final booking of the transaction is done and is charged to the account of the Clearing Member that settles and clears the transaction on behalf of itself or in relation to its DC Market Participants, Indirect Client Market Participants, DCs With System Access or Basic DCs wID.
- (3) For some products and Accounts specified in the table below, a reduced fee is applied on the contract volume of a transaction that exceeds the defined threshold.
- (4) No transaction fees apply in connection with order book transactions pursuant to Number 3.1, if all such transactions were revoked pursuant to Number 2.8 of the Eurex Trading Conditions. The same applies for off-book transactions, if all such transactions were revoked pursuant to the respective provisions in Part 4 of the Eurex Trading Conditions.
- (5) For security transactions in shares resulting from Combination Transactions Option-Share, transaction fees pursuant to Number 3.11 in connection with Number 8.1.1 shall be charged.
- (6) With regard to transactions in Eurex Market-on-Close Futures (Eurex MOC) on Index Futures and in deviation to Paragraph (1), not only will a transaction fee be charged for any transaction in Eurex MOC on Index Futures but also an additional fee relating to the booking of the Index Future underlying such transaction. Such fee relating to the booking of the Index Future underlying such transaction is specified in detail in the following table, the underlying product having been marked "via Eurex MOC".
- (7) With regards to Average Pricing Processing, TES transaction fees pursuant to Number 3.1 are applied for off-book merged transactions without further differentiation between TES and Eurex EnLight.

The fee classification for Equity Dividend Futures is carried out as follows:

The fee classification for an individual Equity Dividend Future shall be based on the relevant dividend amount for such Equity Dividend Future on the effective date and shall become effective on September 1 of each calendar year. The effective date is the last trading day in July of each calendar year. The fee classification shall be communicated via circulars on an annual basis and shall be valid until September 1 of the subsequent year.

If in the following table the fee classification of a product or product group depends on the remaining term to expiration, the remaining term to expiration is calculated by subtracting the year and month of the date of the matching / registration of the respective transactions from the year and month of the contract expiry date.

Product / Product Group	Currency	Execution	Dividend of the underlying stock	Accounts	Standard Fee per Contract (contract volume ≤ threshold)	Reduced Fee per Contract (contract volume > threshold)	Threshold (number of contracts)

- (2) Eurex Clearing may grant higher rebates as the below mentioned rebate levels for a definite period of time. Any deviation from this Number 3.2 is subject to prior publication through Eurex Clearing. The publication shall include the relevant applicable rebate level for the respective instrument, the time period where the rebate is applicable and, if any, further requirements to be met. - (3) The rebate levels in Equity Index, Equity and Interest Rate Options pursuant to Number 3.2.1 and 3.2.2.3 as well as the rebate levels in Equity Index and Interest Rate Futures pursuant to Number 3.2.2.2 are subject to the Liquidity Class ("LC") of each respective product as defined in the Liquidity Class Product Assignments. The Liquidity Class Product Assignments are published on the Eurex website www.eurex.com under the following link:

Eurex > Data > Trading files > Product parameter files

3.2.1 Rebates for the Liquidity Provisioning

3.2.1.2 [Deleted]

3.2.2 Volume Rebates

3.2.2.1 General Provisions

- (1) Eurex Clearing shall grant volume rebates on a monthly basis (i) on Eligible Transaction Fees pursuant to Number 3.2.2.1 (2), if (ii) eligible volume pursuant to Paragraphs (3) to (9) in a specific product group in a given calendar month ("**Eligible Volume**") (iii) exceeds at least the Tier 1 thresholds as defined in Number 3.2.2.2 and 3.2.2.3 and (iv) all further requirements of this Section are met.
- (2) Transaction fees, which originate from the matching or the registration of derivatives transactions pursuant to Number 3.1 regarding Eligible Volume ("**Eligible Transaction Fees**") are eligible for volume rebates.
- (3) Eligible Volume considers all transactions per Eurex Member ID of a Clearing Member, DC Market Participant or, Indirect Client Market Participant, which have been correctly booked on P-Accounts. For the avoidance of doubt, transactions in Alternative Contract Specifications (as defined in Number 3.2.1 of the Eurex Contract Specifications) shall also qualify as Eligible Volume, if the aforementioned requirements are met.

When determining the Eligible Volume in accordance with Number 3.2.2.1 (5) - (9) and to the extent not stated otherwise in Paragraph (4), Eurex Clearing shall consider each Eurex Member ID independently from each other.

- (4) In deviation to Paragraph (3), Eligible Volume shall also consider transactions independent from a single Eurex Member ID if a DC Market Participant, an Indirect Client Market Participant or a Clearing Member assigns the clearing of Eurex Transactions (as defined in Chapter I Part 1 Number 1.1.2 Paragraph (1) of the Clearing Conditions) to several Clearing Members pursuant to Chapter II Part 1 Number 1.9.1 of the Clearing Conditions and if the respective Clearing Member (where applicable, with respect to its DC Market Participant or Indirect Client Market Participant) registers for a consolidated calculation of volume rebates using his (or the DC Market Participant's or Indirect Client Market Participant's) main Eurex Member ID and the respective Multiple Clearing Relationship Eurex Member IDs. The eligible volume of registered Eurex Member IDs will be summed up and the calculation of the volume rebates will be based on the consolidated volume. In order to register, the Clearing Member (where applicable, with respect to its DC Market Participant or Indirect Client Market Participant) shall submit a list of its (or the DC Market Participant's or Indirect Client Market Participant's) Multiple Clearing Relationship Eurex Member IDs and a designated main Eurex Member ID. The consolidated calculation of volume rebates according to this paragraph applies only in relation to volume rebates in Futures granted pursuant to Number 3.2.2.2.
- (5) Eligible Volume comprises the sum of all transactions with their respective volumes. Only these volumes per transaction qualify as Eligible Volume, which do not exceed

the defined threshold for the Reduced Fee pursuant to Number 3.1. In addition, a portion of the volume of the transaction above the defined threshold for the Reduced Fee pursuant to Number 3.1 is considered that is equivalent to the ratio between the Reduced Fee and the Standard Fee. The calculation is based on the following formula.

$$\text{Eligible Volume per transaction} = \text{Vol.} + (\text{Vol.}_+ * P_{\text{Red}}/P_S)$$

Vol. describes the volume of a transaction up to the defined threshold for the Reduced Fee, *Vol.*₊ describes the volume of a transaction above the defined threshold for the Reduced Fee, *P*_{Red} describes the Reduced Fee and *P*_S the Standard Fee in the meaning of Number 3.1.

If no threshold for the Reduced Fee pursuant to Number 3.1 is applicable, all volume for this transaction is considered as Eligible Volume.

- (6) Volume from transactions pursuant to Number 3.1, which have been correctly booked on M-Accounts, shall be added to Eligible Volume pursuant to Paragraphs (3) and (4), if the concerned Clearing Member (where applicable, in relation to its DC Market Participants or Indirect Client Market Participants) is not granted any rebates with respect to liquidity provisioning for this volume.
- (7) When determining the Eligible Volume, no volume is considered:
- a. Which is moved via transaction account transfer between P- or M-Accounts and A-Accounts of the same Clearing Member (where applicable, in relation to one of its DC Market Participants or Indirect Client Market Participants); or
 - b. Which is given up to, or taken up by, any other Clearing Member (where applicable, in relation to any other DC Market Participant or Indirect Client Market Participant).

The foregoing clause 3.2.2.1 (7) b) shall not apply to volumes taken up by any other Clearing Member (where applicable, in relation to one of its DC Market Participants or Indirect Client Market Participants) (each a "**Take-Up Member**"), if

- (i) the Clearing Member, DC Market Participant or Indirect Client Market Participant, that executes the transactions that are given up to the respective Take-Up Member, is (aa) incorporated in an EU member state, (bb) an affiliated company to the respective Take-Up Member within the meaning of §§ 15 et seq. of the German Stock Corporation Act (*Aktiengesetz*), provided that the registration procedure is successfully completed and (cc) the Take-Up Member has provided evidence of such affiliation as required by Eurex Clearing AG and
- (ii) the Take-Up Member is not eligible to directly execute transactions via its own P-Accounts or M-Accounts

Such volumes shall be considered when determining the Eligible Volume.

- (8) Eligible Volume is accumulated per product group and execution type listed in Number 3.2.2.2 and 3.2.2.3 within one calendar month. If this accumulated Eligible Volume exceeds the Tier 1 threshold defined in the aforementioned Numbers, volume rebates are granted pursuant to the following methodology:
- Eligible Transaction Fees, which originate from accumulated Eligible Volume up to the Tier 1 threshold, are not rebated.
 - Eligible Transaction Fees, which originate from accumulated Eligible Volume between thresholds of two consecutive Tiers, are rebated with the respective rebate levels defined in Number 3.2.2.2 and 3.2.2.3 for the lower of the two Tiers.
 - Eligible Transaction Fees, which originate from accumulated Eligible Volume above the highest Tier, are rebated with the rebate levels defined for the highest Tier.
 - The rebate level referred to in this Paragraph (8) is subject to the respective Liquidity Class of each product. Despite the application of Liquidity Classes, Eligible Volume is first accumulated per product group and then allocated to the tiers as described. Afterwards, the Liquidity Class per product is used to determine the applicable rebate level for this product.
- (9) If transactions are booked on P- or M-Accounts by Clearing Members (where applicable, in relation to DC Market Participants or Indirect Client Market Participants), but do not fulfil the prerequisites for a booking into these Accounts as specified in Number 5 of the Eurex Trading Conditions or do not meet the requirements laid down in Number 3.2 Paragraph (1) and Number 3.2.2.2 or 3.2.2.3, Eurex Clearing reserves the right to reclaim the granted rebates. For the avoidance of doubt, if, in this case, rebates have not yet been granted, Eurex Clearing is authorized, when determining the Eligible Volume per product group relevant for the calculation of rebates, to disregard such transactions.
- (10) Rebates pursuant to this Number are granted to Clearing Members subject to the condition that they transfer such rebates directly and in the same amount to their DC Market Participants or Indirect Client Market Participants to which the transactions on which these rebates are based relate. Eurex Clearing reserves the right vis-à-vis Clearing Members to reclaim granted rebates in case of the non-fulfilment of this provision.
- (11) In connection with the calculation and reimbursement of rebates, Chapter I Part 1 Number 2.1.2 Paragraph (7) of the Clearing Conditions applies accordingly. According to this, Eurex Clearing is authorized – in order to verify the orderly booking of transactions into P- or M-Accounts pursuant to Number 5 of the Eurex Trading Conditions, and to verify the transfer of rebates by Clearing Members to

their DC Market Participants or Indirect Client Market Participants – to commission an auditor; the costs have to be borne by the Clearing Member.

3.2.2.2 Volume Rebates in Futures

- (1) When calculating Eligible Volume for Equity Index Futures and Interest Rate Futures, only transactions executed via the order book are considered. When calculating Eligible Volume for Bond Index Futures, transactions executed via order book, Eurex EnLight and/or TES are accumulated.
- (2) Transactions in Eurex MOC on Index Futures shall not be taken into account when calculating Eligible Volume for Equity Index Futures. For the avoidance of doubt: if, following a transaction in Eurex MOC on Index Futures, a booking of the underlying Index Future has been made, the newly booked Index Future is eligible in terms of this Number 3.2.2. Here, the Eligible Transaction Fees are limited to the fee which is listed for the underlying Index Future in the execution type “order book” pursuant to Number 3.1.
- (3) The thresholds and rebate levels per product group as applied in Number 3.2.2.1 (8) are listed in the following tables:

This Number 10 therefore differentiates between ZCIS and SCIS on the one hand and IRS, OIS and FRA on the other hand.

The fees outlined in this Number 10 are levied from the Clearing Member which is Eurex Clearing AG's counterparty with regard to the specific OTC Interest Rate Derivative Transaction. If Eurex Clearing AG's counterparty is an ISA Direct Clearing Member, the fees are levied from the Clearing Agent of the ISA Direct Clearing Member.

- (2) Eurex Clearing AG offers two pricing models pursuant to Number 10.2 and 10.3 for the clearing of OTC Interest Rate Derivative Transactions. The fee for post trade events pursuant to Number 10.5 shall remain unaffected.

The standard pricing model pursuant to Number 10.2 (“**Standard Pricing Model**”) applies to IRS, OIS, FRA, ZCIS and SCIS and is offered to Clearing Members (also with respect to their DC-Related Transactions relating to a specific DC). The Standard Pricing Model consists of two different submodels, the “**Standard Pricing Model A**” and the “**Standard Pricing Model B**”.

The high turnover pricing model pursuant to Number 10.3 (“**High Turnover Pricing Model**”) applies to IRS, OIS, FRA, ZCIS and SCIS and can be chosen with respect to their DC-Related Transactions relating to a specific DC.

Eurex Clearing offers a rebate scheme pursuant to Number 10.4 which is applicable to all pricing models and certain rebate schemes which apply only to specific pricing models.

The following tables give an overview of the clearing fee models and rebates which apply to OTC Interest Rate Derivative Transactions in consideration of the account structure of the Clearing Members (also with respect to DC-Related Transactions relating to a specific DC).

applies to: Pricing model	Own Transactions and UDC-related Transactions of a Clearing Member / ISA Direct Transactions	DC-related Transactions relating to a specific DC
Standard Pricing Model A	Yes (for Own Transactions of a Clearing Member, further rebates pursuant to Number 10.4 are available)	Yes
Standard Pricing Model B (discontinued)	No	Yes
High Turnover Pricing Model	No	Yes

- (3) The Clearing Member may choose by written notice to Eurex Clearing AG the applicable pricing model (or submodel) with respect to its own transactions or, if applicable, with respect to DC-Related Transactions relating to a specific DC. Note that the High Turnover Pricing Model is subject to a minimum subscription period as outlined in Number 10.3.7. If no election is made, the Standard Pricing Model A is applied.

The receipt by Eurex Clearing of the request to change the pricing model (or submodel) will trigger a processing period of at least one calendar month. The respective new pricing model (or submodel) shall be applied as of the first day of the calendar month following the expiry of such processing period, unless Eurex Clearing has explicitly stated to accept the request to become effective as of an earlier date.

10.2 Standard Pricing Model

The standard pricing model (the “Standard Pricing Model”) consists of the submodels A (the “**Standard Pricing Model A**”) and B (the “**Standard Pricing Model B**”).

10.2.1 Standard Pricing Model A

The Standard Pricing Model A is regulated by this Number 10.2.1.

10.2.1.1 Booking Fee per OTC Interest Rate Derivative Transaction

- (1) For the novation of each OTC Interest Rate Derivative Transaction in accordance with Chapter VIII Part 1 Number 1.2.1 of the Clearing Conditions or Chapter II Part 1 Number 1.2.1 of the FCM Regulations, a fixed booking fee per OTC Interest Rate Derivative Transaction (“**Fixed Booking Fee**”) of

- EUR 0.25 for IRS, OIS and FRA; and
- EUR 0.375 for ZCIS and SCIS

per million OTC Interest Rate Derivative Notional Amount in the respective Trade Currency shall be paid by the relevant Clearing Member. In case the relevant Trade Currency is not Euro, the same amount (0.25 or 0.375, respectively) shall be applied in the relevant Trade Currency without currency conversion.

The booking fee is generally charged for the risk assessment of the respective OTC Interest Rate Derivative Transaction prior to the novation, in particular for the incremental risk check, the calculation of the incremental margin requirement for the new OTC Interest Rate Derivative Transaction and the collateral check of the margin requirement with the Eligible Margin Assets actually delivered to Eurex Clearing AG.

“**Trade Currency**” means the currency, in which the relevant OTC Interest Rate Derivative Transaction was entered into.

- (2) In addition to the Fixed Booking Fee pursuant to Paragraph (1), the relevant Clearing Member shall pay a maturity premium to Eurex Clearing in each Calculation Period of

- EUR 0.75 for IRS, OIS and FRA; and
- EUR 1.125 for ZCIS and SCIS

per million OTC Interest Rate Derivative Notional Amount in the relevant Trade Currency multiplied by the Day Count Fraction ("**Maturity Premium**", together with the Fixed Booking Fee the "**OTC Interest Rate Derivative Booking Fee**"). In case the relevant Trade Currency is not Euro, the same amount (0.75 or 1.125, respectively) shall be applied in the relevant Trade Currency without currency conversion.

The maturity premium is charged to compensate for the longer maturity associated increase in the risk of the OTC Interest Rate Derivative Transaction, which must be considered at the novation with regard to the overall risk of the clearing house.

"**Day Count Fraction**" means the actual number of days in a Calculation Period, divided by 365.

"**Calculation Period**" for the purposes of this Number 10.2.1.1 means, with respect to the Maturity Premium, the following period (whereby the relevant date is included in the calculation of the deadline):

- The beginning of the Calculation Period is marked by the later of the following two dates: The start of the execution of the respective OTC Interest Rate Derivative Transaction or the novation pursuant to Chapter VIII Part 1 Number 1.2.7 of the Clearing Conditions or Chapter II Part 1 Number 1.2.5 of the FCM Regulations.
- The end of the Calculation Period is marked by the respective Maturity Date of the OTC Interest Rate Derivative Transaction pursuant to Chapter VIII Part 2 Number 2.3.1 and 2.4.4 of the Clearing Conditions or Chapter II Part 2 Number 2.3.1 and 2.4.4 of the FCM Regulations.

- (3) If the OTC Interest Rate Derivative Booking Fee is lower than the threshold values defined in this paragraph ("**Fee Floor**"), the relevant Clearing Member shall pay the amount equal to the fee floor to Eurex Clearing of

- EUR 0.85 for FRA;
- EUR 0.00 for IRS, OIS; and
- EUR 0.00 for ZCIS and SCIS

per million OTC Interest Rate Derivative Notional Amount in the respective Trade Currency. In case the relevant Trade Currency is not Euro, the same amount (0.85) shall be applied in the relevant Trade Currency without currency conversion.

- (4) If the OTC Interest Rate Derivative Booking Fee exceeds the threshold values defined in this paragraph (“**Fee Cap**”), the relevant Clearing Member shall only pay the amount equal to the fee cap to Eurex Clearing of
- EUR 18.00 for IRS, OIS and FRA; and
 - EUR 27.00 for ZCIS and SCIS
- per million OTC Interest Rate Derivative Notional Amount in the respective Trade Currency. In case the relevant Trade Currency is not Euro, the same amount (18.00 or 27.00, respectively) shall be applied in the relevant Trade Currency without currency conversion.
- (5) The OTC Interest Rate Derivative Booking Fee shall be due and payable by the Clearing Member upon receipt of the invoice for the relevant calendar month. By payment of the OTC Interest Rate Derivative Booking Fee, all services provided by Eurex Clearing in relation to an OTC Interest Rate Derivative Transaction pursuant to Chapter VIII Part 1 Number 1.2.7 Paragraph (4), Number 2.6 (except for services in relation to trade netting in accordance with Number 10.5.1), Number 2.7 (except for the transfer of an OTC Interest Rate Derivative Transaction pursuant to Number 2.7.1 or 2.7.2) and Number 2.8 of the Clearing Conditions, or pursuant to Chapter II Part 1 Number 1.2.5 Paragraph (4), Number 2.6 (except for services in relation to trade netting in accordance with Number 10.5.1), Number 2.7 (except for the transfer of an OTC Interest Rate Derivative Transaction pursuant to Number 2.7.1 or 2.7.2) and Number 2.8 of the FCM Regulations shall be covered.

For each transfer of an OTC Interest Rate Derivative Transaction pursuant to Chapter VIII Part 2 Number 2.7.1 or 2.7.2 of the Clearing Conditions or pursuant to Chapter II Part 2 Number 2.7.1 or 2.7.2 of the FCM Regulations (each a “**Transfer**” for the purposes of this Number 10.2.1), Eurex Clearing may charge the respective transferee Clearing Member and/or the respective transferor Clearing Member a percentage of the originally calculated OTC Interest Rate Derivative Booking Fee for the relevant OTC Interest Rate Derivative Transaction.

Such percentage applicable to the transferee Clearing Member is currently zero per cent.

Such percentage applicable to the transferor Clearing Member is currently zero per cent.

10.2.1.3 Booking Fee per OTC Interest Rate Derivative Transaction for Backloading

10.2.1.4 Booking Fee per OTC Interest Rate Derivative Transaction for Bunched Order Transactions and Transfer Fee for Bunched Order Transactions

- (1) For the novation of bunched order transactions in an account which was designated by the Clearing Members as a suspense account for the initial clearing of bunched order transactions (“**Bunched Orders Suspense Account**”), Eurex Clearing AG may charge the respective Clearing Member a percentage of the originally calculated OTC Interest Rate Derivative Booking Fee for the relevant OTC Interest Rate Derivative Transaction.

Such percentage is currently equal to zero per cent.

- (2) In deviation of Number 10.2.1.2, Eurex Clearing shall charge the transferee Clearing Member for each Transfer from a Bunched Order Suspense Account to another transaction account a fee that amounts to 100 per cent of the OTC Interest Rate Derivative Booking Fee, based on the notional of the transferred OTC Interest Rate Derivative Transaction.

- EUR 0.007 for IRS, OIS transactions;
- EUR 0.000 for FRA transactions; and
- EUR 0.028 for ZCIS and SCIS

per million OTC Interest Rate Derivative Notional Amount and day in the relevant Trade Currency. In case the relevant Trade Currency is not Euro, the same amount (0.007 or 0.028, respectively) shall be applied in the relevant Trade Currency without currency conversion.

The maintenance fee is charged for the ongoing risk calculation of the OTC Interest Rate Derivative Transaction several times a day until the end of the respective maturity and the determination of the variation margin requirement due to changed risk parameters.

The maintenance fee for current OTC Interest Rate Derivative Transactions shall be determined on a daily basis and calculated at the end of a calendar month. The maintenance fee shall be levied independent of post trade events. No maintenance fee will be charged for an OTC Interest Rate Derivative Transaction if it is terminated before or at the end of the last trading day of a calendar month.

- (2) The maintenance fee shall be charged during the relevant Calculation Period at the end of each calendar month based on the actual number of days in the relevant calendar month.

“**Calculation Period**” for the purposes of this Number 10.2.5 means with respect to the maintenance fee, the period from (and including) the novation pursuant to Chapter VIII Part 1 Number 1.2.7 of the Clearing Conditions or Chapter II Part 1 Number 1.2.5 of the FCM Regulations to (and including) the earlier of

- the Maturity Date of the OTC Interest Rate Derivative Transaction pursuant to Chapter VIII Part 2 Number 2.3.1 and 2.4.4 of the Clearing Conditions or Chapter II Part 2 Number 2.3.1 and 2.4.4 of the FCM Regulations (with regard to either, including) and

The subscription period begins on the first day of the month in which the High Turnover Pricing Model becomes effective for the relevant DC.

The minimum subscription period for the High Turnover Pricing Model shall automatically renew for successive periods of twelve (12) months each, unless the Clearing Member provides notice to Eurex Clearing AG of its intent to change pricing models prior to the expiration of the then-current subscription period in accordance with Number 10.1 (3).

- (1) Upon participation of a Clearing Member, Eurex Clearing shall, in advance, levy a fixed fee covering one year, such fee including the Booking Fee per OTC Interest Rate Derivative Transaction pursuant to Number 10.2.1.1 to 10.2.1.3 as well as the Maintenance Fee pursuant to Number 10.2.6 up to the respectively applicable thresholds pursuant to Paragraph 7. As soon as the respective thresholds for the Booking Fee per OTC Interest Rate Derivative Transaction pursuant to Number 10.2.1.1 to 10.2.1.3 and for the Maintenance Fee pursuant to Number 10.2.6 are exceeded, the fee regulations of the Standard Pricing Model A shall apply. The rebate methodology of this Number 10.4 shall nevertheless apply. Within the scope of such request pursuant to Paragraph (2), the Clearing Member may specify the rebate scheme (either for the products IRS, OIS and FRA or for the products ZCIS and SCIS or for both groups) and the selected fixed fee amount (see Paragraph (5)).
- (2) Eurex Clearing grants a rebate (i) as soon as the relevant threshold (cumulated cleared notional of all relevant OTC Interest Rate Derivative Transactions of a Clearing Member) is exceeded pursuant to Paragraph (6), (ii) on the Booking Fee per OTC Interest Rate Derivative Transaction pursuant to Numbers 10.2.1.1 to 10.2.1.3, (iii) for the calculation period specified in Paragraph (4) and (iv) of the amount specified in Paragraph (5). A further requirement for the granting of a rebate is that the OTC Interest Rate Derivative Transactions are Own Transactions of the Clearing Member and have been correctly booked on an account dedicated for such transactions.

Eurex Clearing will grant Clearing Members access to the rebate scheme exclusively upon request. The receipt of such request will initiate a one-month processing period. The participation of the relevant Clearing Member in the rebate scheme will begin on the first Business Day of the calendar month following such processing period unless Eurex Clearing has previously made an explicit statement to accept the request. The participation of the relevant Clearing Member in such rebate scheme shall be automatically extended by another 12 months unless the relevant Clearing Member has terminated its participation in the rebate scheme giving one month prior notice to the end of the relevant 12 month period.

(4) The cumulated cleared notional calculation of all OTC Interest Rate Derivative Transactions of a Clearing Member is based on a 12 month period starting on the day Eurex Clearing granted the Clearing Member access to the rebate scheme and ending after 12 months. The calculation of the respective cumulated cleared notional and of the daily outstanding notional shall be made in Euro. Notionals in other currencies shall be converted to Euro based on the last exchange rate of the European Central Bank for the relevant calendar month. Furthermore, the cumulation and rebate calculation is performed on the proprietary account of the Clearing Member. The rebates will be granted per trade in the trade currency of the product.

(5) Rebate schemes

Eurex Clearing offers the following rebate schemes for the types of OTC Interest Rate Derivatives as listed below and on the basis of the calculation methodology as described below and on condition that the requirements of this Number 10.4 are fulfilled.

a) Calculation methodology for rebates on the Booking Fee

The rebate for the Booking Fee pursuant to Number 10.2.1.3 to 10.2.1.3 for the OTC Interest Rate Derivative Transactions of a specific month within the 12 month period, and with regard to the proportion which exceeds the volume threshold and is thus no longer covered by the fixed fee, is calculated according to the following model:

Let N be the cumulated cleared notional of all relevant OTC Interest Rate Derivative Transactions since the start of the above-mentioned 12 month period, so that $N \leq \textit{Threshold}$.

Let v be the cleared notional of an OTC Interest Rate Derivative Transaction in the given month.

If $N + v > \textit{Threshold}$, then the OTC Interest Rate Derivative Booking Fee for the transaction with cleared notional v will receive a rebate of R per cent as laid out in lit. c) and/or d).

b) Calculation methodology for rebates on the Maintenance Fee

The rebate for the maintenance fee pursuant to Number 10.2.1.5 for OTC Interest Rate Derivative Transactions shall be determined at the end of each calendar month in accordance with the following provisions; and it applies with regard to maintenance fees that arise in respect of the notional of OTC Interest Rate Derivative Transactions which exceeds the applicable volume threshold (if any) and is thus no longer covered by the fixed fee:

Let N be the outstanding notional of all relevant OTC Interest Rate Derivative Transactions at the end of the last day of a given month, so that $N \leq \textit{Threshold}$.

Let v be the outstanding notional of another relevant OTC Interest Rate Derivative Transaction at the end of the last day of the same month.

If $N + v > \textit{Threshold}$, then the OTC Interest Rate Derivative maintenance fee for the transaction with outstanding notional v will receive a rebate of R per cent as laid out in lit. c) and/or d).

The total monthly rebate is calculated by adding the relevant rebates with regard to outstanding OTC Interest Rate Derivative Transactions in the relevant monthly period.

For the purpose of this lit. e), Clearing Members are affiliated if a Clearing Member, directly or indirectly, controls or is controlled by another Clearing Member or the Clearing Members are under common control of another person, whereby the term 'control' shall have the meaning of possession of (i) 50 % or more of the voting rights in the general meeting of a person or (ii) the power, directly or indirectly, whether by contract or ownership, to direct or cause the direction of the management and affairs of a person (including investment decisions).

A group of affiliated Clearing Members that envisages to make use of a rebate scheme on a group level shall appoint and authorize a Clearing Member as group leader to receive all communications of Eurex Clearing vis-à-vis the Clearing Members belonging to the group. However, invoices shall be sent to the respective Clearing Member that is the recipient of the services. The Clearing Member leading the group shall request the rebate scheme using a form provided by Eurex Clearing indicating the Clearing Members belonging to the group. Eurex Clearing may request proof of the Clearing Members' affiliation with each other.

The share payable by each Clearing Member belonging to a group with respect to a monthly instalment of the fixed fee applicable to a rebate scheme shall be based on its performance in comparison with the other Clearing Members belonging to the respective group in the respective month. The performance shall be determined based on the sum of the undiscounted gross revenues applicable for each Clearing Member with respect to the products covered by the respective rebate scheme, whereby the sum of the undiscounted gross revenues shall be calculated by applying the normal fee structure of the Price List (i.e. without consideration of the rebate scheme) on the OTC Interest Rate Derivative Notional Amount cleared and outstanding notional at the end of the last day of the given month by the respective Clearing Member: Let x be the performance of Clearing Member 1 (CM1) and y the performance of Clearing Member 2 (CM2) which form a group. The share of the monthly instalment fee to be paid by CM1 is $x/(x+y)$ multiplied with the monthly instalment of the applicable fixed fee. The share of the monthly instalment fee to be paid by CM2 is $y/(x+y)$ multiplied with the monthly instalment of the applicable fixed fee.

The Clearing Member leading a group shall be jointly and severally liable (*gesamtschuldnerisch haftend*) with the respective other Clearing Member(s) for fees arising under this lit. e) that are payable by any other Clearing Member that forms part of the same group.
