Period of validity, Price, Booking and Billing

10. The OTC IRD BASIC Pack Special Offer 2026 can only be booked until (and including) March 31, 2026.
11. The OTC IRD BASIC Pack Special Offer 2026 is valid for 12 subsequent calendar months, starting from the first calendar day of the month following the month of booking. If there is an ongoing rebate-scheme subscription, it will start on the first calendar day of the month following the expiration of a previous rebate scheme by Eurex Clearing. The price of the OTC IRD BASIC Pack Special Offer 2026 will be a fixed fee of EUR 125,000 per month, which becomes due and payable upon determination by Eurex Clearing, but no earlier than the beginning of the calendar month to which a monthly fee relates.
12. Allocation of monthly fees in the case of a Group Registration The share payable by each Group Member for a monthly fee will be based on its performance in comparison with the other Group Members with respect to their proprietary transactions covered by the OTC IRD BASIC Pack Special Offer 2026 in the respective month. The performance will be determined based on the sum of the undiscounted gross revenues (in transactions covered by the OTC IRD BASIC Pack Special Offer 2026) applicable for each Group Member. The sum of the undiscounted gross revenues will be calculated by applying the normal fee structure of the Price List (i.e., without consideration of the rebate scheme of the OTC IRD BASIC Pack Special Offer 2026) on the OTC Interest Rate Derivative Notional Amount cleared by the respective Clearing Member or, in the case of Eligible Disclosed Direct Clients, cleared by the Clearing Member with respect to DC-Related Transactions relating to the Eligible Disclosed Direct Client that are proprietary transactions of the Eligible Disclosed Direct Client.

Example: Let x be the performance of Clearing Member 1 (CM1) and y be the performance of Clearing Member 2 (CM2), which form a group. The share of the monthly fee to be paid by CM1 is $x/(x+y)$ multiplied by the monthly fee of EUR 125,000. The share of the monthly fee to be paid by CM2 is $y/(x+y)$ multiplied by the monthly installment of EUR 125,000.
