Corporate Action	Issue of Bonus Shares
Company	Air Liquide SA
ISIN	FR0000120073
Rules&Regulations	Contract Specifications for Futures Contracts and Options Contracts at Eurex Deutschland, section(s) 1.6.7 (5) ,1.13.8 (5), 1.26.11 (4), 2.6.10.1 (6)
Options contracts on stocks	AIR, AIRE
Futures contracts on stocks	AIRF, AIRQ
Equity Total Return Future	TAIR
Futures contracts on dividends of stocks	A7IR, A8IR, A9IR

The company Air Liquide SA has announced the issue of bonus shares at a ratio of 1:10.
More information about this transaction is available on the company's website.
The issue of bonus shares will result in an adjustment of the above-mentioned contracts.

Procedure

R-Factor Method

Determination of adjustment factor (R-factor)

Number of old shares	10
Number of new shares	11
R-factor	0.90909091

Options

Adjustment of strike prices and contract sizes

- All existing strike prices will be multiplied by the R-factor.
- The contracts size will be divided by the R-factor.
- The version number of the existing series will be increased by one.
Immediately after close of trading on the last cum trading day, adjusted strike prices and contract sizes will be published on www.eurex.com. New series with standard contract size 100 and version number 0 will be introduced effective the ex-date.
- All existing orders and quotes will be deleted after close of trading on the last cum trading day.
- The adjustment also refers to existing positions in TES flexible options.

Exercises

- Upon exercise of positions in adjusted series, cash settlement will be made for the fractional part of the new contract size.

Futures

1. Adjustment of contract size and variation margin

- The adjustment uses the same R-factor as used for options
- To adjust the calculation of the variation margin of the following exchange trading day, settlement prices of the last cum trading day will be multiplied by the R-Factor.
- The new contract size will be calculated as follows: $\text{Contract size new} = \text{contract size old} / \text{R-factor}$
- All outstanding orders and quotes will be deleted after close of trading on the last cum trading day.
- The adjustment also refers to existing positions in TES flexible futures.

2. Introduction of a new contract

- New single stock futures contracts and equity total return futures contracts with standard contract size 100 will be introduced. Furthermore, new stock dividend futures contracts with standard contract size 1000 will be introduced.
- The exact introduction date will be published via a circular.
- As soon as the new contract is available for trading and there are no more contract months with open interest in the original contract, trading in this contract will be put on "HALT" and finally discontinued.

Should there be no open interest in the affected contracts AIRF, AIRQ, TAIR, A7IR, A8IR and A9IR on the last cum trading day after close of trading, then these contracts will not be adjusted and no successor contracts will be introduced.
