MiFID II/MiFIR is finally here. We have been a great team!

Dear Eurex participant,

We wish you a Happy New Year! For all of us, 2018 kicks off with a major milestone: the introduction of MiFID II. After years of preparation, we will finally enter a new regime and together take our first steps in the revised trading world.

Let us take this opportunity to thank you all very much for your constructive and good cooperation, for your questions and your input. It helped us a great deal. Over the last couple of months, we all achieved a lot. Especially the last few weeks have been tough, but together we made this project a success.

We at Eurex look forward to continuing our dialogue with you. Please tell us about your experiences in the new world. Let us know about any issues that need to be addressed so that we can quickly turn our focus to the business again - which for all of us is trading. We will continue to create new and efficient products, to enhance our market models and to develop efficient solutions for you.

Sincerely yours,

Thomas Book and the Eurex Customer Readiness Team
