**8 December 2017**

# Eurex Exchange's MiFID II/MiFIR & T7 release 6.0 readiness news

Dear Eurex participant,

We are glad to inform you, that T7 release 6.0 was successfully introduced into production on 4 December 2017. With the T7 release 6.0 we can confirm, that Eurex is now MiFID II /MiFIR compliant. We want to thank all of you for participating in the simulation and the connection test and for your excellent cooperation and support during the last couple of months.

We would like to focus now on the remaining MiFID II /MiFIR items (Reference data, Licenses, DEA, Market Making etc.). Please be advised, that the upload functionality for Reference Data and Algo IDs is now available for the production environment. Please upload all the relevant Reference data (initial upload) and Algo IDs for production by the end of 2017 into the Member Section or via SFTP upload. After the initial upload, please upload the delta data only. If not already done, please also upload the National IDs of your traders.

On 11 December 2017, the new selective Request for Quote (SRQS) platform, **Eurex EnLight,** will be available to all Eurex trading participants. With the upcoming MiFID II regulation there will be an increased requirement on investment firms to prove Best Execution. Eurex EnLight provides all the relevant data and will help Eurex trading participants to meet these requirements. The key benefits of Eurex EnLight are:

- Effective technology to assist members with their MiFID II compliance obligations
- Increased market efficiency through electronic price formation
- Improved compliance controls
- The new way to source liquidity for block trades
- Built on proven technology
- Automatically available to all Eurex trading participants

Initially, Eurex EnLight will be available for Fixed Income and Money Market options. Further asset classes will be added soon.

For further information about Eurex EnLight please visit the Eurex EnLight website.

All publications and readiness updates are published on the T7 release 6.0 initiatives page.

If you have any further questions or comments please do not hesitate to contact your Key Account Manager or send an email to customer.readiness@eurexchange.com.

Kind regards
Your Customer Readiness Team
