Eurex Exchange's MiFID II/MiFIR & T7 release 6.0 readiness news

Dear Eurex participant,

Shortly after the launch of T7 release 6.0, Deutsche Börse will start the migration to partition-specific (PS) gateways (as announced in Eurex circular 122/2017). This change affects all trading participants, software applications and connectivity that makes use of high frequency sessions. PS gateways will replace the existing high frequency gateways and will only allow transaction routing to a specific partition. High frequency sessions may login to only one PS gateway at a time and have to specify the partition ID in their initial connection request to the connection gateway. Low frequency sessions and gateways will remain in place and allow routing to all partitions.

To help trading participants with the setup process, we have published a set of useful documents on our website that explain the new feature in detail. The detailed implementation timeline is mentioned in the respective circular 122/2017.

Eurex strongly recommends to test the new concept in the T7 release 6.0 simulation environment. Please align with your Technical Key Account Manager (e-mail: cts@deutsche-boerse.com) in case you have any questions.

New publications

- Circular 122/2017: T7 Release 6.0: Introduction timeline for partition-specific gateways
  Further reading about this topic:
- Circular 76/2017: T7 Release 6.0: Publication of Preliminary Release Notes
- Circular 51/2017: Introduction of T7 Release 6.0 on 4 December 2017
- Circular 26/2017: Introduction of the Co-location 2.0 service
- Circular 15/2017: Introduction of the maximum number of 10 GBit/s connections to Eurex T7
- Circular 10/2017: Introduction of the Eurex Co-location 2.0 services

Recommendations in this context

- Please participate in the T7 release 6.0 simulation environment as soon as possible.
- Align with your ISV and/or connectivity provider regarding your required features and timelines.

All publications and readiness updates are published on the T7 release 6.0 initiatives page.

If you have any further questions or comments please do not hesitate to contact your Key Account Manager or send an e-mail to customer.readiness@eurexchange.com.

Kind regards
Your Customer Readiness Team
